

JUSTINCASE 万一

Your cargo's late – we pay anyway.

参数化跨境延迟保障 • 由 Polymarket 实时定价

/// 01 • THE GAP

60% of cross-border trade pain is delay. Cargo cover only handles damage.

⚠ ICC-A ~~explicitly excludes delay loss~~ – ship didn't sink, cargo's intact, but you're 2 weeks late: missed promo window, engineers idle on-site, customer-side LD penalties stack daily. **No one covers that gap. Until us.**

/// 02 • HOW IT WORKS

① Connect your enterprise Agent

Claude Code • Open Cloud • MCP server • ERP / contract-mgmt / project ledger / ops finance – direct read, no more PDF uploads

② AI decomposes 4–5 independent risk vectors

Claude Opus 4.7 + Sonnet 4.6 • STRAITS • WEATHER • COMMODITY PRICE • POLICY • MACRO – 5 independent bet bases per voyage

③ Real-time Polymarket pricing

Each risk vector ties to a real prediction market contract • price = market price, not actuarial guess

④ One-click bind + automated hedge split

Premium routes across Polymarket / reinsurance / derivatives • trigger from AIS + port-arrival timestamps • 72h payout

● POLYMARKET • LIVE

AIS • SPIRE

IMF PORTWATCH

KALSHI

LLOYD'S LIST

BALTIC EXCHANGE

/// 03 • NUMBERS

20s

B/L → POLICY

Fully automated. Industry baseline: 7 weeks.

72h

TRIGGER → PAYOUT

Smart contract releases funds. No adjuster, no haggling.

/// 04 • WHO IT'S FOR

BUYER HOLDS • CFR/CIF/FOB • ~75%+ of global trade

Importers • trading desks • channel distributors – anyone who signed an "\$X per day late" LD clause.

SELLER HOLDS • DAP/DDP • project deployment

EPCs • system integrators • equipment exporters – anyone who pinned a go-live date into the contract.
